

Superior Court of California

County of Tulare

For all misdemeanor cases, including trials, an electronic recording is maintained as the official record of the proceedings and a copy of the recording may be prepared. The Court will place the recording on a compact disc (CD) in a format that is compatible with most CD and media players found on personal computer systems.

A fee of \$25.00 is charged for the CD. Payment is required upon submission of request.

Unless other arrangements are made, you can expect to receive a copy of the recording within five (5) working days of submission of the Request for Electronic Recording.

The electronic record is the only official record in a misdemeanor proceeding.

REQUEST OF ELECTRONIC RECORDING
